Most people have questions regarding tickets for Commencement. Yes, we are currently limiting the number to 10, but we are also providing a lottery system for unclaimed tickets. Here is what the process will look like:

1. You will soon be receiving an email asking you to respond with "Graduation Information Verification." This email will ask both how many of the 10 tickets you will be claiming and also if you would like to request additional tickets. **Please respond to the verification email accordingly.**

2. We will gather the information and determine how many extra tickets are available. Each person will have their name entered into the lottery in 5 ticket increments.*

3. Names will be drawn at random to distribute the remaining tickets. Students will be notified by email of the extra seating and tickets will be distributed in each student's packet.

4. Any remaining names in the lottery will be maintained in case extra tickets are returned and the process will be repeated as tickets come back in.

*It is possible that all the need for extra tickets is covered by those choosing not to utilize all 10 tickets and from those who choose not to participate in commencement. In which case, all students will be notified and the tickets will be added to each envelope accordingly.
