The history of William Jessup University is set apart by the legacy of exceptional people coming together to do extraordinary things to further the vision of the University. President’s Circle membership was created with that legacy in mind; to share the vision of WJU and build community among those who faithfully resource WJU through their prayer and financial support.

The President’s Circle directly supports the annual campaign (University Fund), affording deserving students’ accessibility to a Christ-centered college education at William Jessup University.

Consider how you might be involved in increasing the membership of the President’s Circle among your family, friends, church and business associates. We encourage you to invite other like-minded supporters to attend future President’s Circle events and benefit from the opportunity to make a meaningful difference in the lives of Jessup students, as we Transform Tomorrow… Today.
