New Student Orientation (NSO) is William Jessup University’s way of welcoming all new students and their families into our community. Through a variety of activities, games, and informational workshops, students will begin to build relationships, familiarize themselves with the campus, and feel like a part of the WJU family. We believe that NSO is an integral part of students getting a solid start to their college experience and this is why we have dedicated the first four days of their time on campus to this experience.

Students, please take a look at the schedule we have sent you and know that great deal of time and prayer has gone into our preparation for your arrival.

Grace and peace to you as we begin this exciting journey together.
