Prior to registering be sure to:

- Clear any financial or academic holds you may have. Account balance must be $0.00 in order to register.
- Meet with your advisor so that you are cleared to register in the portal.
- If applicable, prepare the following to submit to the Registrar’s Office:
  - Petition to Change Academic Requirements
  - Application for Graduation
  - FERPA (changes only)
  - Request for Independent Study (Independent Studies must have a form submitted to the Registrar’s Office for registration and will also be charged a $100 per unit fee.)
- Understand that courses may be adjusted if they are determined to be outside of the prerequisite, course standing, and degree applicable standards. Just because you can register for a class through the portal doesn't mean you are truly eligible. See the catalog for more information on what kind of prerequisites courses require. Remember that most Freshmen and Sophomores will not be allowed to remain in 400 level classes and only some will truly be eligible for 300 level classes.
